Bringing the Cheetah back to India - 15.9.2022

The idea of reintroducing cheetahs to India has been a topic of debate for conservationists and wildlife experts. Historically, cheetahs were native to India, but they became extinct in the country in the 1940s due to various factors such as hunting and habitat loss. Reintroducing them would require careful planning and considerations to ensure the ecosystem can support their presence and protect them from potential threats.

ORAL HEALTH CARE AWARENESS - 19.6.2023

The annual event of PUBLIC HEALTH DENTISTRY DAY is commemorated on June 19th, with the aim of raising awareness about the importance of oral health care, disease prevention, and the impact of oral hygiene on one's overall health. The primary focus was to promote and enhance the knowledge and awareness of PUBLIC HEALTH DENTISTRY DAY to both students and patients and to promote the message "IMPORTANCE OF PUBLIC HEALTH DENTISTRY".

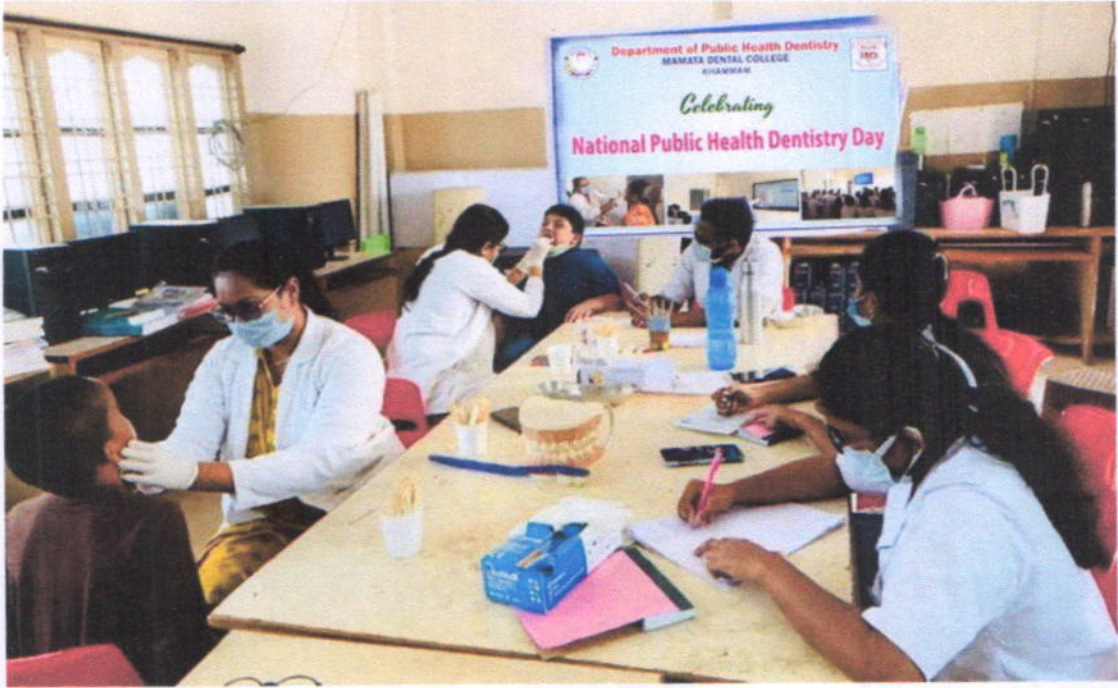

The Department was decorated and oral health examination is done in some areas of Khammam by post graduate students and interns as a part of this program various places in Khammam were announced for conducting awareness program by undergraduates, postgraduates and faculties.
