

## LIBRARY LEARNER SESSIONS AND USAGE PROGRAMS

The number of books, journals, e-resources and other learning resources available in the library are highlighted to both staff and students. Learner sessions for students and new faculty is conducted twice in a year. In the session, basic rules of the library, the number of books a student can take under their id, number of days they can issue them and the timings of the library are highlighted. The students and staff are also upraised about the duration of time the separate reading rooms are available for them and that they can issue books for reading in the reading room. The available software, ways to use the software are also highlighted. The Knimbus mlibrary software had conducted a learner session and the librarian had participated in the online program. The usage of the software and the e-resources available were discussed.
