

MAMATA DENTAL COLLEGE

KHAMMAM

A questionnaire was prepared to make a survey on various parameters of the institute and the same was filled in the year 2022-2023. The questionnaires consisted of 10 questions for student feedback, 11 questions for teachers' feedback, 9 questions for alumni feedback and 10 questions for employer feedback and 11 questions for parents feedback respectively. All the questions were based primarily on teaching learning process, behaviour/conduct, infrastructure, initiatives/grievances etc. The responses for the year were analysed in order to take corrective actions in relation to institutional vision and goals. The student feedback approach is basically about institutional practices, processes and frameworks that take into account students concerns of the quality of the education they receive. The response of this feedback-form consisted of options and they were asked to select any one option. In the given survey held in 2023-24, the college collected the feedback from around 372 (students), 20 (employers), 98 (alumni) and 54 (teachers) and 90 (parents). The questionnaire along with its evaluation is given below:
